# Book Excerpt

## FOREWORD

I have lived in many countries and from each country, wherever it is in the world, my favorite keepsake has been a book on that particular place. For in those pages are glimpses of the colors, the customs, the culture, which are showcased through photographs, artwork, literature and poetry, and in *Creative Callaloo*, recipes. Each page contributes a piece to the cultural quilt of the country or island.

The United States Virgin Islands have a long and varied past. French, Spanish, Dutch, Danish and English, as well as Caribbean and African tongues, have all been spoken here. Each adding depth to the culture and customs, whether through oral history, literature, art, music, dance or food.

Creativity, in any form, imbues all that is around us, awakens our senses and feeds our soul. Whether it is the aroma of Creole Ay-Ay frying in a skillet—a delicious recipe devised by Mark E. Davis—or a statement such as the one Winifred "Oyoko" Loving so evocatively writes, "We are the creators of lyrical beauty. We play so you can listen."

The pages of *Creative Callaloo* vibrate with color—a cockerel strutting, a moko jumbie towering near tall buildings, the cool aquamarine and turquoise of the glistening Caribbean—all surround the recipes and poetry.

Danica M. David has drawn on her talents as an artist, photographer, and writer to produce this delightful book, named for her memory of a callaloo bush in the garden of a beloved relative, which captures the essence of these beautiful islands.

Take home a taste of the Virgin Islands, both cultural and culinary, and enjoy the warmth of your memories as you dip into *Creative Callaloo*!
